- Linux (Debian/Ubuntu)
- Windows Server (AD, GPO, IIS)
- VPN: OpenVPN, SoftEther, Pritunl, V2Ray
- DNS / SSL Administration
- cPanel · Plesk · WHM
- MySQL / MSSQL
- PRTG Monitoring
- Bash & PowerShell Scripting
- PHP (Laravel)
- Wireshark · Nmap

LANGUAGES

Persian — Native
English — C1
German — B2

Systems and network administrator with 4+ years of experience administering 1,000+ servers across enterprise IPv4 address ranges, combined with virtualization (Proxmox, VMware ESXi), enterprise networking (Cisco, Mikrotik), and firewall/VPN infrastructure (pfSense/OPNsense, OpenVPN, Pritunl). Independently resolved 21,000+ customer support tickets while maintaining secure, stable, and efficient IT services. Skilled in automating operations with PHP, Bash, and PowerShell to harden server and hosting environments for reliability and security.

PROFESSIONAL EXPERIENCE

Systems & Network

Administrator | Maral Host Co. —
Isfahan, Iran

05.2022 – Present

- Administer and troubleshoot VMware ESXi and Proxmox virtual machines, containers (LXC), and software-defined networks supporting enterprise hosting infrastructure.
- Deploy and maintain pfSense/OPNsense firewalls (VLANs, NAT, firewall rules) and site-to-site VPN tunnels (Pritunl, OpenVPN, SoftEther, V2Ray) for secure multi-network connectivity.
- Manage DNS, SSL certificates, and hosting panels (cPanel, Plesk) across client domains, alongside SQL Server/MySQL database administration.
- Diagnose and resolve VPS and network incidents, and harden WordPress hosting environments against security threats.

Freelance IT & Automation

Developer | Isfahan, Iran

05.2019 – 04.2022

- Built a PHP-based server/website monitoring system integrating the PRTG API, delivering real-time uptime reports and automated port/domain scans.
- Developed a Puppeteer-based data-extraction tool automating Google/YouTube keyword analysis into a MySQL database.
- Automated Windows software deployment and configuration (registry, DNS cache, services) for university and enterprise systems via custom scripts, reducing manual installation time.

Military Service — Iranian Armed Forces | 12.2017 – 04.2019

EDUCATION

B.Sc. in Computer Science, Software Engineering — Payam Noor
University, Shahin-Shahr, Iran | 09.2010 – 06.2017
